

# EFMP CONTINUATION ON LOCATION

## WHAT?

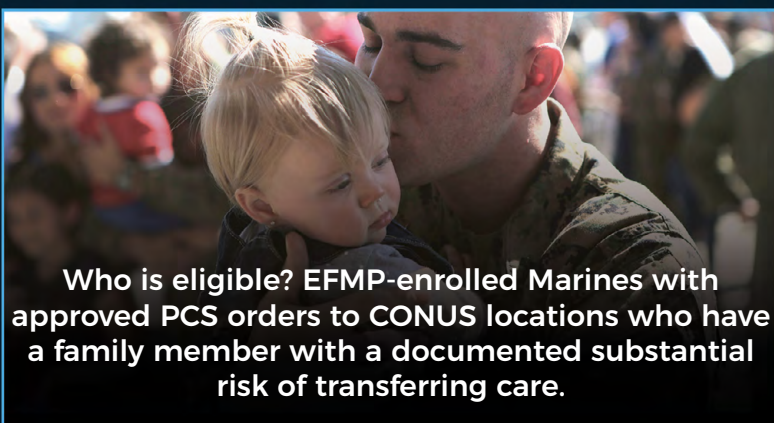

An approved CoL stabilizes the family when there is a substantial risk of transferring medical care or educational services at the time of the PCS. The Marine executes PCS orders as a geographic bachelor while the family remains in place. It allows the Marine the opportunity to receive the higher of the two Basic Allowance for Housing at either the approved Col (upon request) or the Marine's new PDS. You may also be eligible for Family Separation Allowance.

## WHY?

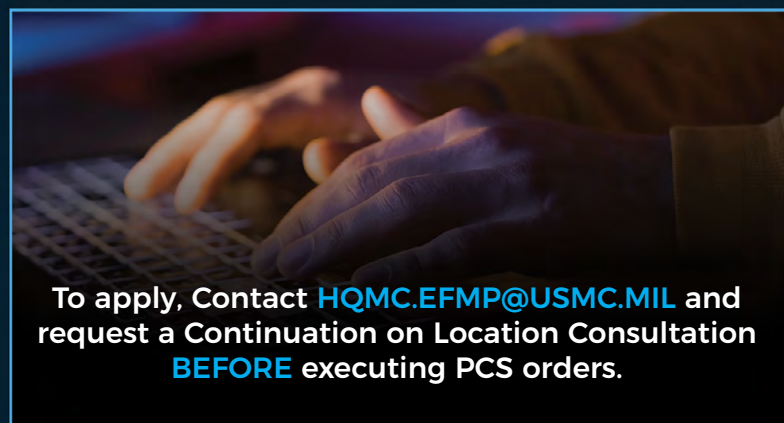

Some families face challenges maintaining continuity of care disrupted by PCS assignments when there is a severe medical condition or a significant educational need. CoL is designed to reduce significant risks associated with disruptions in medical care and/or educational services.

## WHO?

Who is eligible? EFMP-enrolled Marines with approved PCS orders to CONUS locations who have a family member with a documented substantial risk of transferring care.

## HOW?

To apply, Contact [HQMC.EFMP@USMC.MIL](mailto:HQMC.EFMP@USMC.MIL) and request a Continuation on Location Consultation **BEFORE** executing PCS orders.
